

Together, through Friendship, in Peace and with Courage, We Reach for the Stars.

Dear Parents and Carers,

It has been a pleasure to welcome the children back to school this week and they should all be very proud of the way that they have slotted seamlessly back into school routines and expectations, after the summer break. It has been a pleasure to welcome the new Auckland Class into school this week, alongside the other new children who have joined Sutton Veny – they have all been a real credit to themselves.

We have been notified by the NHS that the annual flu vaccination programme has been brought forward this year. It usually takes place in November, although the vaccines have been delivered earlier this year and the team will be coming into school on **Tuesday 19th September** to administer the nasal spray vaccination to the children. In order for your child(ren) to receive the vaccination you must register them by providing your consent. If you do not want them to receive the vaccine, you need to inform the team using the same consent form. Please see the letter for parents and carers below, as this has all the information that you need.

We hope that you all have a restful weekend.

Yours sincerely,

Mr Adam Lewis

Headteacher

Annual Nasal Flu Vaccination Consent

Dear Parent/Guardian,

Your child's flu vaccination is now due.

This vaccination is recommended to help protect your child against flu. Flu can be an unpleasant illness and can cause serious complications. Vaccinating your child will also help protect more vulnerable family and friends by preventing the spread of flu.

Please complete the consent form using the following link:

<https://schoolimms.hcrgcaregroup.com/flu/2023/wilts>

Please ensure you complete your child's consent **48 working hours** before your school session to ensure your child receives their vaccination.

We are visiting your child's school on **Tuesday 19th September**.

Together, through Friendship, in Peace and with Courage, We Reach for the Stars.

The vaccination is free and is a quick, simple and painless spray up the nose. Even if your child had the vaccine last year, the type of flu can vary each winter, so it is recommended to have it again this year or they won't be protected.

A leaflet explaining the vaccination programme for primary aged children can be accessed at:
https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/116516/1/UKHSA-12652-protecting-your-child-against-flu-information-for-parents-and-carers.pdf

and includes details about the small number of children for whom the nasal vaccine is not appropriate. The nasal spray vaccine contains a very small amount of purified porcine gelatine as an essential ingredient to keep it stable and able to work. For those who may not accept medicines or vaccines that contain porcine gelatine, a flu vaccine injection is available. Since the programme was introduced, most children offered the vaccine in schools have had the immunisation.

If you have any queries, please contact the School Aged Immunisation Team on **0300 247 0082** or email us using vcl.immunisations@nhs.net

Yours sincerely,

Roanna Ellis

Acting Professional Lead for School Aged Immunisations

If your child becomes wheezy, has a bad attack of asthma, or has started oral steroids for their asthma after you return this form, please contact the healthcare team on 0300 247 0082.

If you decide you do not want to vaccinate your child against flu, please complete the consent form giving the reason. This will help us plan and improve the service.
